The Concrete Cutting Industry Association will hold its 5<sup>th</sup> Annual convention at the Marriott Resort, Surfers Paradise in Queensland Australia.

The convention will run from 15-16<sup>th</sup> March 2007 and promises to be even more successful and entertaining than past conventions.

The past conventions held at the Marriott Resort have attracted record numbers of attendees as this location seems to be the preferred spot for CCIA Members.

The convention will feature in-depth presentations that will address many topics relevant to operating small businesses as well as safety concerns and technical problems for concrete sawing and drilling professionals from around the globe. Attendees will be provided with excellent networking opportunities at these sessions as well as social events such as the Aussie BBQ and the evening Gala which will include comedic talents of Danny McMasters and the CCIA house band Platinum Edge.
